RELEVANT WORK EXPERIENCE

- Glory Schools, Egbedi** 2022 – Present
Students Affair Manager: I effectively direct and manage the secondary students extracurricular, vocational and creative activities. I coordinated and oversee the operation of local school clubs within the school’s premises. I also propagated the students’ participation in Debate, Quiz and Spelling bee competitions.
Subject Teacher: With regards to my previous Bachelors of Law, I teach Civic Education in the School’s Senior Secondary School. I utilize my knowledge and experience, with a law firm during my Industrial Training, to effectively educate the students about their right and civic responsibilities as a responsible citizen of Nigeria. I also lead the students in performing Voluntary Community Service.
ICT Manager: I created the School’s website, manage their social media pages, run Facebook and Instagram Adverts and assist in the training of Students in the use of ICT and development of static web pages.
- Ministry of Justice, Osun State** 2021
Legal Intern: I drafted, printed and edited Legal Documents; Contracts, Deed, Agreements, etc. I also helped in scheduling client meetings, interviews and conferences for the directors. I assisted in preparing and researching court documents for solicitors to improve solicitor’s presentations.
Computer Assistant: I typed and printed legal documents with Microsoft Documents. I managed their social media pages, handled customer service and edited the Website’s Copy.

RESEARCH EXPERIENCE AND INTERESTS

- Academic Researcher, Undergraduate, ESCAE Benin University** 2021-2022

As an Undergraduate student, I researched about the trends in the criminal laws of Nigeria and in the international society. I looked into the Capital punishment in Nigeria, the controversies, the arguments, the proposed solutions, my preferred recommendations and the forms of capital punishment we have in Nigeria and across countries in the world.

In my Master's Program, I hope to examine the intersection between Law and Technology, how we could move into a different era of legal systems and how criminal discovery could be way more easier with the integration of more advanced Internet Of Things. Perhaps, society could be more lawful if Law and Technology intersects.
